

QUALITY POLICY

Spline Gauges recognises that clear, positive and visible leadership is core to effective management and is essential in maintaining a positive Quality culture throughout the organisation. As such Spline Gauges is committed to:

Legal and Other Requirements

Complying with all relevant statutory & regulatory requirements, operating in accordance with both government and industry codes of practise and guidance appropriate to our activities.

Management of Risk

Assessing and managing the risks associated with our activities to ensure a high level of protection for interested parties.

Policies and Documentation

Documenting polices and ISO 9001:2015 Quality Management system to enable Spline Gauges to control our risks and improve our performance.

Training

Providing all employees with information, instruction and training aimed at ensuring that they understand their responsibilities and their contribution towards the achievement of the environmental objectives.

Continual Improvement

Achieving continual improvement for Quality performance, Spline Gauges will periodically and systematically review its performance against these objectives.

Objectives and Targets

The leadership team will define risks and establish measurable Quality objectives in accordance with Spline Gauges company Management systems.

Communication

Ensuring appropriate Communication with our interested parties with regards to policy, procedures, objectives in relation to ISO 9001:2015 Quality Management system

Establishing a positive relationship with all suppliers and external interested parties, endeavouring to ensure all products and services fully meet the requirements and expectations of our customers.
